

Dear Ma'am or Sir,

As a single father of three, KLOVE (88.9FM in OKC) is a vital part of our daily lives. My children and I listen to KLOVE night and day. Without KLOVE's positive influence, "it would SUCK" as my kids would tell you.

This one station does so much good for our city. Great music stations are hard to come by here and around the country. KLOVE actually brings us and the country together. It's great to know that what we are singing to on KLOVE, someone in Alaska is singing the same song. I'm tired of the system taking away my right to listen to music that doesn't fit into a P/C category. The only reason for the LP-FM format is to make more money for someone.

Why save KLOVE? How many local (or LP-FM) station can you call day or night just to talk about how to handle your son running away? KLOVE even has help people who wanted to commit suicide. KLOVE helps the community here and around the country with food drives. I challenge you to just listen to KLOVE for a day in your area or on the WEB.

For the sake of my children and yours, Please save KLOVE for their children.
May God Bless You and America.

The MacDonald Family
